## PERSONAL STATEMENT

As a master's student at "Whitireia and Weltec" and an experienced Web developer with over four years of valuable experience in monitoring project performance to ensure organization success, I'm looking for developer roles. I am currently advancing my expertise in AI and project management through my Masters of IT. I want to learn more about how the problems are arranged, how systems operate and what the solutions could be. Finding a simple solution to complex problems is an interesting task and I love exchanging ideas by working with others sharing my expertise and skills.
